Gastronomy

Gastronomy is very important to us!

From the very beginning of Protur Hotels gastronomy has always been a very high priority in all of our establishments, regardless of their star rating.

The quality of cuisine has always been excellent.

In March 2017 we celebrated our first National Cookery School Contest "Protur Chef". The idea behind it was to give an opportunity to cookery students, to help them develop their talent while at the same time boost Spanish gastronomy.
